

ALEX MORGAN

JUNIOR DATA SCIENTIST

PROFILE

Junior data scientist with a strong base in data analysis and statistical methods. Skilled in cleaning, exploring, and visualizing data to uncover clear insights. Able to use Python and R to support problem-solving and simple machine learning tasks.

EDUCATION

Bachelor of Computer Science

PROJECTS

Customer Churn Prediction System

Built a classification model to predict customer churn using Python and Scikit-learn. Visualized results using Matplotlib and Seaborn.

Sales Forecasting Analysis

- Developed time series forecasting models to predict monthly sales trends.
- Implemented regression models and compared forecasting accuracy.
- Conducted data preprocessing and handled missing values.
- Presented insights and recommendations based on forecast results.
- Tools: Python, Pandas, NumPy, Statsmodels, Matplotlib

EXPERIENCE

Insight Analytics Pvt. Ltd. — Remote

Junior Data Science Intern

2023

- Assisted in building machine learning models to analyze customer behavior and improve retention strategies.
- Cleaned and preprocessed large datasets using Python, Pandas, and NumPy.
- Created data visualizations and dashboards using Matplotlib and Seaborn to communicate insights to stakeholders.
-

SKILLS

Python

transformers

Adaptability

sql

Programming

numpy,pandas
